Art Unit: 3753

The following is an examiner's statement of reasons for allowance: the prior art fails to show all the details of the claimed invention, including a thrust element, retaining element, and seal disposed in between. Other elements are shown in the references cited, but there is insufficient motivation to combine the individual parts from the various references in a single device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Because of obviously informal lettering therein, the drawings need to be replaced with new formal drawings.
